

STRATA™ Store Controller Software V6.7

INTRODUCTION

The Brooks Strata™ software is the high-performance engine that drives the sample management process in Brooks Life Sciences SampleStore™, BioStore™ and SE automated storage systems.

Strata makes automated storage easy and convenient to use: no special engineering expertise is required to operate the system. Strata's reliability and flexibility ensure that your samples will be efficiently processed and securely protected.

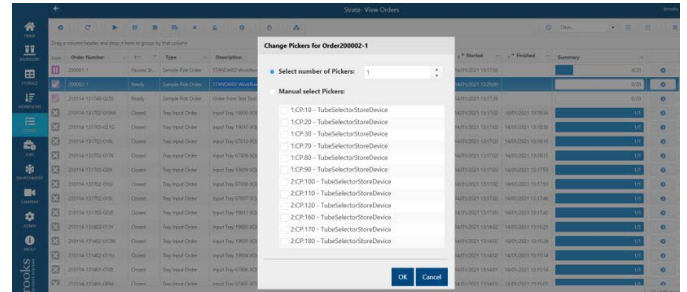

This latest release of Strata includes advances in Workflows, Visualization and Order analysis.
